

# FLIGHT PLAN ROLES

## **Pilot**

The pilot is responsible for “*flying the plane*”. Note that the pilot can only input instructions based on a consensus of the group.

## **Navigator**

The navigator is responsible for the flight plan. The navigator will record all the ideas that the *crew* deems is essential to understanding the concept. Written information about the flight and illustrations are essential. (*See Navigator sheet*)

## **Co-Pilot**

The co-pilot is responsible for ensuring that all information is read, work is completed and the *crew* stays on task.

*We will rotate the roles each flight. Make sure you record who is responsible for each role on each flight.*
